PRIZE WORTH \$12,000 WON BY M. J. DALY'S CLAUDE.

Winner's Rider Also a Daly-Unpopular Victory, Because It Was Not Expected by Bettors.

ST. LOUIS, June 13.-Claude, by Lissak-Tida H., with 127 pounls on his back, owned by M. J. Daly, trained by M. J. Daly, and ridden by Jockey J. Daly, won the St. Louis Derby, valued at \$12,000, from a good field to-day. Claude, although over-traveled, over-weighted and overlooked, disposed of his field with amazing ease, winning by two lengths, with something in reserve. The colt had everything in his favor from the flagfall. Starter Dade got the field away after two minutes' delay to a good start. Au Revolr, the Bennett candidate, and epual favorite in the betting with the Darden pair, Monsieur Beaucaire and Sioux Chief, at 3 to 2, was first to show, followed closely by Schreiber's sprinter, Deutschland. Claude was fourth, Coburn on Au Revoir allowed Deutschland to set the pace, passing the stand the first time, and at the seven-eighths pole made a fast move with the Bennet horse, but to the surprise of the vast throng Deutschland hung on and the pair ran neck and neck to the mile, at a terrific pace, Au Revoir leading by a neck, Deutschland second, Lenden third and Claude being sixth. Turning into the stretch Au Revoir had enough and surrendered the lead to Deutschland. Here Monsieur Beaucaire was brought up and for a time was in the lead, with the fast tiring Deutschland second and Bas D'Or third. A mighty shout went up for the Darden candidate, "Au Revoir has chucked it up; Monsieur Beau-caire wins." Monsieur Beaucaire was coming fast and to all appearance had the race at his mercy. All eyes were centered on him, the popular; the whitenosed horse was winning and a mighty shout went up. At the sixteenth pole a little horse was seen coming out of the bunch, head down, like a pitching broncho, and mowing down the horses ahead of him with remarkable ease. J. Daly, on Claude, had made his winning move. With the greatest ease Claude went into the lead and before the wire was

CLEVER LIGHTWEIGHTS WILL MEET AT EMPIRE THURSDAY.

Jack Cullen and Eddie Sterns Matched

for Semi-Windup-Corbett on "Fight Interferers."

The Indianapolis Athletic Club will offer a first-class programme of boxing bouts at the Empire Theater next Thursday evening. The main bout, of ten rounds, will be between Otto Sieloff, of Chicago, and Harry Fagin, of Milwaukee. They will go for a decision, and the contest should be very fast and exciting. Indianapolis lovers of the fistic art who saw the bout between Sieloff and Judge, at the Empire a short time ago, are acquainted with Sieloff's wonderful hitting ability and his cleverness in mixes and close-range work. In meeting Fagin he will have for an opponent a man who is even better able to cope with him

than Judge. Milwaukee and Detroit clubs have tried for several weeks to bring Sieloff and Fagin together, but the fighters would not accept the purses that were offered. The Indianapolis Athletic Club signed the two men by offering them handsome inducements, believing that they would draw a crowd that would test the capacity of the theater. These men will be in condition for a fast contest.

There will be the usual programme of twenty-four rounds of boxing, and every effort has been made to make the coming carnival the best that has ever been given in this city. Jack Cullen, the Indianapolis lightweight, and Eddie Sterns, a clever lightweight of Noblesville, have been matched for the six-round semi-wind-up, and they will go for a decision. The two four-round preliminaries will be interesting. Owing to the great interest that will be taken in the contests, especially the Sieloff-Fagin bout and the Cullen-Sterns contest, the advance sale of seats will begin to-morrow morning.

XXX Jim Corbett, who is now in California, is handing a few hot roasts to the "pious fight interferers," as he calls them. In an interview recently he said:

"There is no physical pain whatever attached to the prize ring, provided, of course, that a man is well trained and has prepared himself for the conflict. There would never have been a death in the roped arena had the fighters who have met with such accidents been trained. The best argument to substantiate my statement is the fact that in the history of fighting no champion was ever killed or even seriously injured. But my, what a hullabaloo people make over the slightest injury that happens in the ring. I want to illustrate a little incident as a comparison.

and one of the players sliding into home plate broke his arm. The spectators cheered as he walked off the field, and the women present forgot all about the poor fellow's pain, but watched the game as unconcerned as if nothing had happened. The papers did not even comment on it further than to mention the fact that Player So-and-So had broken his arm, and would be out of the game for several months. "Don't you think it about time that these pious interferers' got on the wood and talked about something they know whereof they speak? I was playing an engagement in Rochester one time and one of those nice, meddlesome old ladies who are so popular in every community called upon me at my hotel, saying: 'Mr. Corbett, several ladies of our sewing circle and members of the church are trying to prevent prize fighting and we want to start in and see we can't reform you. Your reputation is so great that if you will consent to

abandon the ring, others will follow. It's so brutal, you know.' " 'How do you know it's brutal?' I asked. "'My husband told me so." "'Does your husband know?" "'Wel!, a friend of his told him so."

Bob Fitzsimmons, ex-champion of the world, was in Chicago last week, on his way to San Francisco, where he is to take up the work of conditioning Jim Jeffries for the champion's fight against Jim Corbett on Aug. 14. Fitzsimmons announced that he is going to give the winner of the fight between Jack Root and George Gardner a battle for the light heavyweight champion-ship. Fitzsimmons said that Jack O'Brien and Tommy Ryan are both four-flushers, He said he agreed to make the middle-weight limit for either, and they crawled The Anderson team, which will meet the out of a match the moment they were

will give him rough, hard, gruelling work. He said Jeffries would be an easy winner, Metropolitan championship at the Baltimore | and expects to see him as good as a 3 or 4-to-1 favorite. Fitz believes the fight will not last over six rounds, and he is willing to bet it will not go ten rounds. He says Jeffries is too strong, and expects to see him lame both of Corbett's arms before they are in the ring three rounds.

Indications point to an early meeting in the roped arena between Joe Gans, lightweight champion of the world, and Jimmy Britt, of California. The Fort Eric Club has offered a purse of \$6,000 for the contest. The only point in dispute between the Gans wants to make the articles read for the boys to weigh in at 133 pounds six hours before fighting time. Britt insists that both men weigh in at 133 pounds at the ring side. If the contest be arranged, it will take place the latter part of next month.

WATER PURIFIED BY OZONE.

New Method Demonstrated at Niagara by a French Scientist.

NIAGARA FALLS, N. Y., June 13 .- Prof. Otto, of France, yesterday made a successrapid spread down the coast of Luzon also ful demonstration of the ozone process of purifying water. It was witnessed by fifty officials of this city and Lockport. An elecleave the harbor. Not a single case could | tric current of 50,000 volts was sent through a cylinder ozonizer through which air passed, and as the air met the electrical discharges the oxygen was burned, creating ozone. This ozone was carried to the sterilizing tower by two pipes. The unpurified water entered the tower at the top and there, in spray form, first met the ozone. As it flowed downward through fine granite it again met the ozone, completing the process. The water product was clear and quite changed. It is stated that from thirty to forty electrical horse power will treat 5,000 tons of water a day. Later Professor Otto will demonstrate the process before leading scientists of the country.
